Summary

Motivated Electronics and Telecommunication Engineering graduate with hands-on experience in Frontend and backend development using Java, React, SQL, Node.js, Express.js, and RESTful APIs. Strong understanding of Object-Oriented Programming (OOP), Data Structures, DBMS and Software Development Life Cycle (SDLC). Experienced in developing backend services, implementing secure authentication, integrating databases, and building scalable web applications. Passionate about writing clean, maintainable code, solving complex problems, and contributing to the development of reliable, high-performance enterprise applications.

Education

Shrimati Kashibai Navale College of Engineering

B.E. Electronics and Telecommunication Engineering — CGPA: 7.50/10

Pune, Maharashtra

2022 – 2026

T.N. Raundal College of Science

Higher Secondary Certificate (HSC) — 85%

Kalwan, Maharashtra

2021

R.K.M. Secondary and Higher Secondary School

Secondary School Certificate (SSC) — 83.0%

Kalwan, Maharashtra

2019

Internship Experience

Kasnet Technologies Pvt. Ltd.

Cloud Intern

Pune

Jan 2025 – Feb 2025

- Developed understanding of cloud computing concepts using Microsoft Azure including IaaS, PaaS, and SaaS models.
- Explored Azure services such as Virtual Machines, Storage, and Networking.
- Performed basic provisioning and configuration of Virtual Machines.
- Gained foundational knowledge of cloud infrastructure and resource management.

Projects

TravelSync – AI-Powered Solo Travel Platform | Flutter, Express.js, Firebase, Cloudinary, Groq API, REST APIs

- Developed a cross-platform travel application using Flutter with features for trip creation, collaboration, and secure user authentication using Firebase.
- Built RESTful APIs using Express.js, integrated Firestore for real-time data storage, Cloudinary for media management, and a Groq LLM-powered chatbot for AI-based travel recommendations.
- Deployed the backend on Render and the frontend on Firebase Hosting. Live Demo: travelsyncf.web.app

Expense Tracker - Full Stack Finance Management App | React.js, Node.js, Express.js, MongoDB, REST APIs

- Built a full-stack expense tracking application with secure authentication and expense management features.
- Developed RESTful APIs using Node.js and Express.js for transaction tracking and user operations.
- Integrated MongoDB for efficient CRUD operations and data persistence.
- Created an interactive dashboard with graphical reports to visualize spending patterns and financial insights.

Technical Skills

Languages: Java, JavaScript, SQL

Backend: Node.js, Express.js, REST APIs, Firebase

Frontend: React.js, HTML, CSS, JavaScript

Databases: MySQL, MongoDB, Firebase Firestore

Core Concepts: OOP, DBMS, Data Structures, SDLC

Tools: Git, GitHub, Postman, Azure Fundamentals

Other: Authentication & Authorization, API Testing, Debugging

Certifications

- Microsoft Azure Fundamentals (AZ-900)** – Microsoft
- Java Programming Certification** – Core2Web
